Did you know?

The skills we need to manage our money begin to develop between the ages of three and seven

Around a quarter of 18 to 24 year olds often borrow money to buy food or pay bills

Almost one in five 16 and 17 year olds feels anxious thinking about their money

Young people who recall learning about money at school are more likely to have good money habits and feel confident managing their money.

This toolkit for schools includes information and resources to help you promote the financial wellbeing of your pupils and students, during Talk Money Week and beyond.

What is Talk Money Week?

Talk Money Week is the annual campaign that aims to get the nation talking about money – from pocket money to pensions.

Why talk money at school?

Schools and colleges play a vital role in ensuring children and young people develop the skills and knowledge they need to manage their money well now and in later life. At the same time, financial education can enhance your curriculum, strengthen your extra-curricular offer and provide a focus for wider engagement with the local community.

How to get involved?

We're calling on all schools and colleges across the UK to do what they can to help the children and young people they work with to talk money. Read on for ideas and resources to help you deliver quality financial education during Talk Money Week and beyond.

Planning tools

The Financial Education Planning Frameworks, developed by Young Money and endorsed by the Money and Pensions Service, set out what children and young people might need to know about money, at what age. Available in English and Welsh, they can be used to support lesson planning and to consult pupils and students on their own areas of interest.
